MAJOR LE INCIDENT DEBRIEFS

JOSH COMITALE - OFFICER SURVIVAL WHILE UNDER FIRE

NY police officers hospitalized after shootout, gunman dead

The night of the incident, the officers responded to a call about a carjacking. Comitale was on foot, while Klein was in a police SUV when he was shot from behind in the shoulder by Faison on 112th Street between Fifth Avenue and the 112th Street Park. After Comitale saw Faison shoot Klein, he opened fire and was shot in both legs during the shootout in which 25 rounds were fired. Although he was downed and his gun jammed, he reloaded as Faison fired at him. He then applied tourniquets to his legs to stop the bleeding.

Josh's presentation will focus on officer survival and the use of TCCC in a gunfight, specifically the utilization of a tourniquet. It covers the incident from shiftstart to the end of the gunfight with video of the incident, radio transmissions, wounds sustained by himself, his partner Chad, and the suspect.

WEST MEMPHIS SHOOTOUT WITH COP-KILLING SOVEREIGN CITIZENS

Officer Michael K. Neal rammed into cop killers and stopped their attack with his rifle

On May 20, 2010, Officer Neal was instrumental in ending a brutal gun battle in West Memphis that resulted in the death of two West Memphis police officers and the wounding of the Crittenden County Sheriff and his chief deputy. Michael became a key factor in ending the gunfire by ramming his Game & Fish vehicle into a minivan carrying two shooters. While under direct fire, he engaged the duo in a fierce gun battle, eliminated the threat and prevented any further loss of life. In his presentation of the Medal of Valor to Officer Neal, Governor Mike Beebe stated: "His training kicked in and further tragedy was averted and avoided by his trained, heroic, selfless actions."

"As soon as I rammed the van, I came under heavy fire from an AK47. I received at least a dozen rounds into my truck, through my windshield, dashboard, and grill," says Neal. "I returned fire, killing the first suspect and mortally wounding the second suspect, who later died."

TRAINING FROM THE BEST

JEFF CHUDWIN AND ED MOHN

I/OA Tactical Patrol Officer Program with Jeff Chudwin and Edward Mohn

The I/OA's Tactical Patrol Officer Program is based on the belief that effective police response to unexpected, on-going violent active threat situations is enhanced when first responders have a commonality of training, tactics, techniques, equipment, verbiage and capabilities. The skill sets obtained through this training initiative better prepares officers when responding to violent criminal events, enhances their survivability, success, and improves their ability to manage crisis situations. To recognize and encourage TPO training, two levels of recognition have been established. Tactical Patrol Officer and the Master Tactical Patrol Officer.

DUSTIN MOWERY | 88 TACTICAL

Vehicle Assaults with Dustin Mowery

Every day, officers across the country are attacked when they're in and around cruisers or suspect vehicles. When these attacks happen, officers should understand what will happen when bullets strike the car and more importantly, how the car could help them. During this brief, Dustin will present the ammunition commonly used by law enforcement and their counterparts, and what the ammunition does and does not do to the cars we're driving.
